

STATEMENT FROM THE MAYOR

For Immediate Release
Friday, August 31, 2012

As Mayor, I am concerned that complete and accurate information regarding the four new fire-paramedic stations in Sage Creek, River Heights, St. James and Charleswood has not immediately been available.

I have asked City Administration to give priority to completing its report on this project, so that the members of the Standing Policy Committee on Property and Development and all members of City Council may review this matter as soon as possible.

All members of Council, as well as the citizens of Winnipeg, need to be able to have confidence in city processes. I am committed to ensuring that I, and Councillors, receive a complete briefing on this project.
